Every observed physical card | Exact photograph coordinates | Buyer working copy

164 visible cards, mapped to the photos

30 binder pages / 60 photographs / 155 physical pockets. The review records 131 occupied pockets and 24 empty pockets. Thirty-three occupied pockets have two distinct visible card faces, giving 164 observed physical cards. Entirely concealed extra material is not counted.

Issue / group	Cards	Completeness
1964 Topps Giants	52	52 of 60
1974 Kellogg's	54	54 of 54 base subjects
1972 Kellogg's All-Time Baseball Greats	15	15 of 15 base cards
1978 Kellogg's	8	Partial group
1971 Kellogg's	2	Partial group
1972 Kellogg's	1	Partial group
1970 Topps Super	10	Partial group
1971 Topps Super	4	Partial group
Exhibits / provisional 1947-1966 series	16	No completeness claim
Salutation Exhibits / provisional 1939-1946 series	2	No completeness claim

Reverse visibility: 98 cards have matching visible reverses, including six blank Exhibits backs. The other 66 cards have their reverses hidden by the opposite-facing card. A blank reverse is not an empty pocket.

Photograph names: pageN-front.jpg and pageN-back.jpg describe the photographed side of the binder page. They do not always identify the card face or reverse. Use the Face photo column to find the pictured player.

All 164 cards are listed next. No numerical grades or authentication conclusions are assigned. Printed signatures are facsimiles. For condition notes, consult Inventory and Review and the illustrated condition report.

Reading the checklist

Physical ID. MV-P05-R3-C-A means Mixed Vintage, binder page 5, row 3, center pocket as seen in the front photograph, item A. A and B identify the two distinct cards observed in a double-loaded pocket. Single cards have no suffix.

Face photo. P05 front R3C points to page5-front.jpg, row 3, center. P05 back R3C points to the back photograph, at its own as-photographed coordinate. The player-facing image is located here regardless of its physical loading direction.

Reverse photo. A coordinate is given only when that same card's reverse is visible. "Hidden" means another card faces outward on that side; it is not a condition judgment.

Orientation. Rows run top to bottom in each original photograph. L/C/R mean left, center and right. Pages 12-30 were photographed in landscape orientation; their matched reverses usually change rows rather than simply mirroring columns. Coordinates retain the original photographs, even when a report crop is rotated upright.

Issue abbreviations. ATG = All-Time Baseball Greats. Exhibits numbers are shown as unnumbered; no numbers are invented. A catalog-matched number is an identity crosscheck, not authentication.

Completeness. Giants missing numbers: 3, 7, 42, 45, 47, 48, 51, 60. The 1974 Kellogg's base-subject group and 1972 ATG base group are complete in this visible record. The other numbered groups are partial. No completeness claim is made for Exhibits.
